

**LAZIO**  
WALL-MOUNTED

**ARIETTA**

Available in 30" and 36" widths, Lazio is an excellent choice for traditionally styled kitchens where PRO styling and performance are desired. The 23" depth is ideal for ventilating deeper PRO style cooktops and ranges. A 400 CFM blower provides adequate ventilating power for most kitchens and dishwasher safe anodized aluminum mesh grease filters are easy to clean and replace. Lazio features High-Tech LCD controls which manage multiple functions, including dual LED Light Lamps, 3 speed blower, plus automatically turns on under high heat and even has a sensor that tells you when to clean your filters.

For taller kitchens, Lazio has chimney extensions available as an accessory. Designed for standard ducted installation, Lazio can also be installed as a recirculating system using the Recirculating Kit, available as an accessory.
